

What are the « Montees » meaning for me?

"I know the « Montees » since I was a little kid, and the fact it is still working and touching people hearts is a big blessing and for sure is the result of the Holy Spirit working among the people involved. Looking forward to be involved in it as it is broadening its horizons into new fields of service like Justice, so to be like John the Baptist: "A voice calling in the wilderness" to prepare the path for Jesus Christ.
